

Certified QA Engineer Program Handbook

ISTQB CTFL Preparation Pathway

Certified Tester Foundation Level (CTFL) v4.0

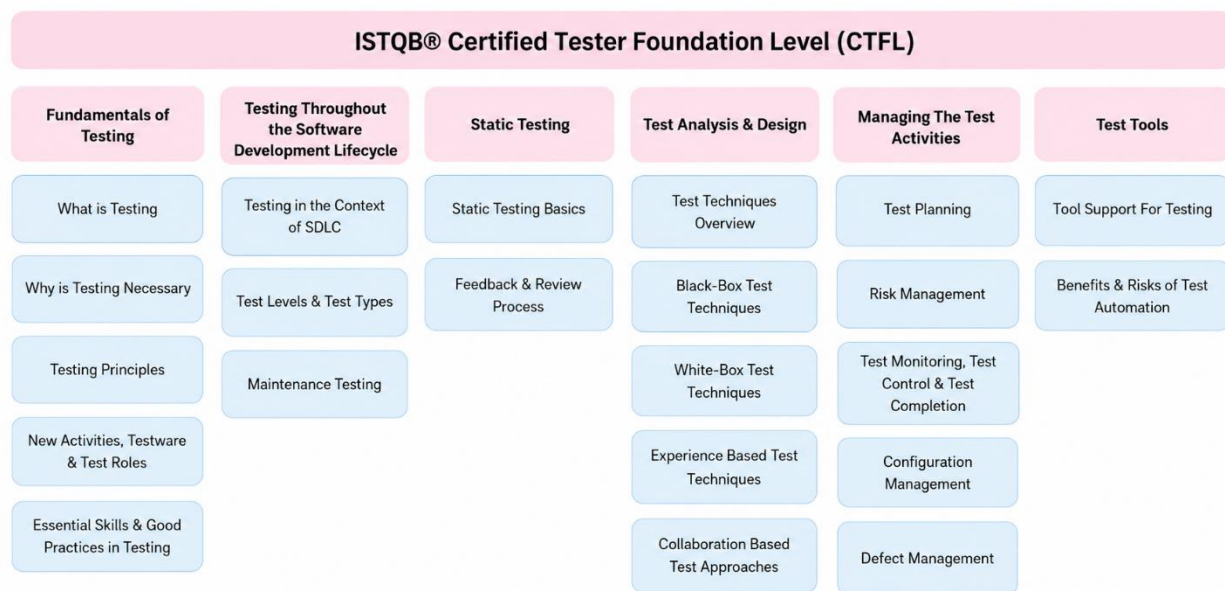

ISTQB® is the world's leading software testing certification organization, recognized by employers and QA professionals globally. It provides internationally accepted standards for software testing knowledge, skills, and career development.

- The ISTQB® Certified Tester Foundation Level (CTFL) certification is the perfect starting point for anyone who wants to build a strong career in software quality assurance.
- It gives you a clear understanding of the key testing concepts, terminology, and practices used worldwide. Whether you work in Agile, Waterfall, DevOps, or Continuous Delivery environments, CTFL helps you apply testing knowledge confidently in real-world projects.
- CTFL is also the foundation for all advanced ISTQB® certifications, making it an important first step in your QA career journey.

Content & Exam structure

The ISTQB® CTFL syllabus is designed to build a strong foundation in software testing. It introduces essential testing concepts, testing practices across the software development lifecycle, static testing, test design techniques, test management activities, and test tools. The certification exam includes 40 questions, with a passing score of 26, and is completed within 60 minutes.

Exam Structure

✓ No. of Questions: **40**

✓ Total Points: **40**

✓ Passing Score: **26**

✓ Exam Length (mins): **60** (+25% Non-Native Language)

Expected Outcomes of CTFL Certification

Business outcomes expected from a candidate who has achieved the ISTQB® Certified Tester Foundation Level certification include the ability to:

- ✓ Understand what testing is and why it is beneficial
- ✓ Understand fundamental concepts of software testing
- ✓ Identify the test approach and activities to be implemented depending on the testing context
- ✓ Assess and improve the quality of documentation
- ✓ Increase the effectiveness and efficiency of testing
- ✓ Align the test process with the software development lifecycle
- ✓ Understand test management principles
- ✓ Write and communicate clear and understandable defect reports
- ✓ Understand the factors that influence testing priorities and effort
- ✓ Work as part of a cross-functional team
- ✓ Understand the risks and benefits related to test automation
- ✓ Identify essential skills required for testing
- ✓ Understand the impact of risk on testing
- ✓ Effectively report on test progress and quality

About Infotech College of Business & IT

Infotech College of Business & IT is a professional education institute focused on helping students, undergraduates, and working professionals build practical, career-ready skills for today's job market.

We conduct industry-relevant training programs in IT, business, data, finance, and professional career development. Our courses are designed to connect academic knowledge with real-world workplace skills.

What We Offer:

- ✓ Professional IT and business courses
- ✓ Career-focused skill development programs
- ✓ Practical training with real-world applications
- ✓ Guidance for recognized professional certifications
- ✓ Learning support through live sessions, recordings, and study materials
- ✓ Programs for undergraduates, fresh graduates, and working professionals

Our Focus:

To help learners improve their knowledge, build confidence, and become ready for better career opportunities in the modern business and technology environment.

What We Provide for CTFL Certification Preparation

Infotech College of Business & IT provides structured learning support to help students prepare confidently for the ISTQB® Certified Tester Foundation Level certification.

- ✓ Complete guidance based on the ISTQB® CTFL syllabus
- ✓ Clear explanation of software testing concepts and terminology
- ✓ Practical examples connected to real-world QA work
- ✓ Exam-focused learning support and question practice
- ✓ Guidance on test techniques, test management, and test tools
- ✓ Support to understand the ISTQB® exam structure and preparation method
- ✓ Career guidance for students who want to enter the QA field
- ✓ Learning materials, session recordings, and continuous support

Our goal is to help learners build a strong foundation in software testing and prepare for the internationally recognized ISTQB® CTFL certification with confidence.

Lecture Details

Duration: 12 Live Sessions – 24 Lecture Hours

Schedule: Every Sunday 10.00 AM – 12.00 PM, Extra session details will be shared due course.

Mode: 100% Online via Zoom

Learning Resources:

- Session notes
- Lecture recordings
- Learning materials shared through our dedicated LMS platform
- Lifetime access to lecture recordings for easy revision

Instructor

Ms. Dulari Kelaart

Educational Qualifications

- B.ICT in Software Technology – University of Sri Jayewardenepura
- B.Eng in Software Engineering – IIT
- MBA in Management of Technology – University of Moratuwa (*Reading*)

Professional Qualifications

- ISTQB® Certified Tester – 2020
- ISTQB® Certified Tester, Specialist in AI Testing – 2025

Professional Experience

- Over 6 years of experience in the software and IT industry
- Strong professional knowledge in software testing and Quality Assurance
- Experienced in applying testing concepts in real-world working environments
- Provides practical and industry-focused guidance
- Ability to explain technical concepts clearly in a simple and beginner-friendly manner
- Guides students through the ISTQB® CTFL syllabus and examination registration process step by step

Payment Details

To confirm your enrollment for the ISTQB® CTFL preparation program, students are required to complete the course payment before the registration deadline.

Course Fee: Rs 15,000 LKR

Option 01: Full Payment: 12,000 LKR

Option 02: Two Installments: 10,000 LKR + 5,000 LKR

Option 03: Group registrations: 10,000 LKR (Minimum 3 students per group)

Payment Method: Bank Transfer / Cash Deposit / Credit, debit card

Payment Deadline: 11th Saturday, July

After completing the payment, please send the payment slip or transaction receipt to our official WhatsApp number for confirmation.

Send payment confirmation to: 0702 422 999

Bank Details

Bank Name: Bank of Ceylon

Account Name: Infotech College of Business & IT

Account Number: 90913224

Branch: Biyagama

Important Note:

Your seat will be confirmed only after the payment receipt has been verified by our team. Please keep a copy of your payment slip for future reference.
